General Information Panama

On arrival in Panama City, a night in the city is planned to get used to the tropical weather and to be able to enjoy the five-hour drive to the coast the following day.

The solar radiation you are exposed to while fishing can be extreme at times. We therefore recommend a fishing-free day after two days on the boat.

Deep sea fishing is the trolling of artificial lures and dead natural baits for marlin and sailfish, with Mahi-Mahi often biting on sailfish baits. Other bycatches such as wahoo and various types of tuna are possible. When tuna is sighted, thrown poppers and jigs are used.

Coastal fishing is active fishing with poppers and jigs for Cubera Snapper, Roosterfish, GTs.

It is recommended to bring the following with you:

1. Sunscreen with a high sun protection factor, headgear, long-sleeved UV protective clothing, sunglasses.
2. Although most places accept international credit cards, it's recommended to bring some cash in American currency.
3. Beachwear, simple lace-up shoes (sneakers are enough)
4. Water-repellent bag / backpack for the boat
5. Photocopy of travel documents and international travel and medical insurance

Do not hesitate to contact us with any further questions about travel logistics or travel in general. We look forward to hearing from you.
